SKILLS

- Java programming
- Java Spring Boot
- RestFul API
- JavaFX
- Java Server Faces(JSF)
- MYSQL
- Postgress
- NextJS
- Apache Kafka Messaging
- HTML
- Bootstrap
- OPERATING SYSTEM INSTALLATION
- Computer Services(Window installation, Software Installation, Computer setups and others)
- Telematics Installation
- CCTV CAMERAS INSTALLATION
- INTRUDER ALARM SYSTEM
- GENERAL COMPUTER REPAIRING
- NETWORK CONFIGURATION
- MICROSOFT SUITS (WORD,EXCEL, POWERPOINT ETC)

- Active Directory
- Docker
- Kubernetes
- CI/CD
- Git & Github

EXPERIENCE

2025 - Present

- **System Administrator**
Nzema Manle Rural Bank PLC
Installing, configuring, and maintaining operating systems and software.
Managing user accounts, permissions, and access rights.
Monitoring system performance and ensuring optimal uptime.
Performing regular backups and disaster recovery planning.
Applying system updates, patches, and security configurations.
Monitoring network connectivity and troubleshooting issues.
Ensuring system security and compliance with policies.
Managing hardware resources (servers, storage, printers, etc.).
Troubleshooting and resolving technical issues.
Documenting configurations, processes, and changes.

2022 - 2024

- **Java Software Developer**
Kamak Paperless Limited
Designing, developing, and maintaining Java-based applications.
Writing clean, efficient, and well-documented Java code.
Debugging, troubleshooting, and resolving software issues.
Integrating applications with databases, APIs, and third-party services.
Updating and maintaining existing Java applications.
Creating technical documentation for applications and processes.

2020 - 2022

- **Java programming Tutor(Teaching Assistant)**
Takoradi Technical University
Teaching assistant (Java,VB.net,PHP and database)

2019 - 2020

- **I.T Support Officer**
Goodnews FM
Installing, configuring, and maintaining computer systems, networks, and software.
Providing technical support and troubleshooting hardware/software issues.
Managing user accounts, email systems, and access permissions.
Ensuring network security and data protection.
Performing regular backups and disaster recovery procedures.
Monitoring system performance and resolving connectivity issues.
Assisting in the procurement and setup of IT equipment.
Maintaining an inventory of hardware and software assets.
Training staff on the use of IT systems and tools.
Implementing and enforcing IT policies and procedures.
Supporting the setup and maintenance of printers, scanners, and other peripherals.
Coordinating with vendors for IT-related services and repairs.

2017 - 2019

- **Developer**
Cynnex I.T Solution
Web and software development using php and JAVA

2015 - 2017

- **Data Entry Clerk**
Half Assini Government Hospital
OPD Assistant and record room assistant manager

OBJECTIVE

Aspiring DevOps Engineer and Backend Developer passionate about automation, cloud infrastructure, and system reliability. I aim to contribute to forward-thinking organizations by developing robust backend systems, implementing CI/CD pipelines, and embracing modern DevOps practices.

PROJECTS

- **News-hub-API**
This project was 100% build with java Spring Boot.
- **MMFinance**
This project is a desktop application build with JavaFX

LANGUAGES

- English

INTERESTS

- Reading
- Travelling
- Coding
- Watching movies

ADDITIONAL INFORMATION

Certifications:

DevOps Engineer (in progress)

AWS Cloud Practitioner (planned)

Java Programming & Spring Boot (self-study & projects)

Technical Tools & Platforms:

Git, GitHub, GitLab

Docker, Kubernetes, Terraform

Jenkins, GitHub Actions (CI/CD)

Monitoring: Prometheus, Nagios

Cloud: AWS (EC2, S3, IAM)

Professional Memberships:

Member, DevOps Ghana Community

Contributor, GitHub open-source projects

Activities:

Served as President, National Service Association (Nzema-East 2021-2022) – led initiatives including a PHP-based voting system

Participated in hackathons and coding competitions (Vodafone Code Competition)

Soft Skills:

Leadership & Team Collaboration (Agile/Scrum experience)

Strong Problem-Solving & Critical Thinking

Effective Communication & Documentation

ACHIEVEMENTS & AWARDS

- Developed a Voting System (PHP) for the NSS Association during my tenure as president (2021) enabling transparent and automated elections. Built a Student ID Generation System during my tenure as Interest And Innovation president at TTU (2019-2020), for the Computer Science Department at TTU, streamlining student identity card creation. Implemented an SMS Notification System for Nzema Manle

Rural Bank, allowing customers to receive real-time alerts for birthdays and special occasions. Designed and Deployed a POS System, currently in use by two businesses, handling sales transactions and inventory management.

ACTIVITIES

- *Contributor to GitHub open-source projects on backend development. *Active learner of DevOps tools (Docker, Kubernetes, Terraform). *Participant in hackathons and online coding competitions (HackerRank, LeetCode). *Volunteer IT support for local organizations (server setup, system troubleshooting). *Member of DevOps & Cloud Computing communities.
